STELIA Aerospace develops new bespoke Business Class seat for Turkish Airlines

STELIA Aerospace has been selected by Turkish Airlines, "*the airline that flies to more countries than any other in the world*", to supply its bespoke Business class seats to be fitted on the newly ordered 25 B787-9 and 25 A350-900 aircraft. Deliveries will begin in Summer 2019.

This new Business Class seat, "Full Flat, Full Access, Full Privacy", specifically tailored for Turkish Airlines, offers many enhancements, providing customers with more comfort during flight:

- Real full-flat long beds
- A generous seat pitch of 44"
- Generous footwell
- Adjustable dividers between alternate rows of centre seats (full-height and mid-height) to customise the level of privacy
- Lowerable armrests

Other features include more stowage space, integrated reading lights and a large meal table. The interior trimmings of each seat have also been given a touch of luxury with Alcantara padding, a material used to fit the interiors of sports cars.

Passengers also enjoy a more personalised and interactive experience in terms of Inflight Entertainment, with an 18" full high-definition touchscreen monitor. They also benefit from the convenience of direct aisle access.

Thierry KANENGIESER, VP Cabin Interior, STELIA Aerospace, said: "This bespoke Business Class seat has been developed for Turkish Airlines as their best in class seat, in order to enhance passenger comfort for long haul. We are very involved in customising our products at every step of design, so as to meet our customer's needs and expectations. This new seat offers comfort combined with modern styling".

About STELIA Aerospace:

With a turnover of 2,2 billion euros and 7,000 employees worldwide (4,500 in France and 2,500 in North America, Tunisia and Morocco), STELIA Aerospace is one of the world leaders in the field of aerostructures, pilot seats and Business class and First class passenger seats. STELIA Aerospace designs and manufactures the front fuselage sections for the entire Airbus family, as well as fuselage sections and specific sub-assemblies for Airbus, fully equipped wings for ATR, fully equipped central fuselages for Bombardier's Global 7500, and complex metallic and composite aerostructure parts for Boeing, Bombardier, Embraer, Northrop-Grumman...

STELIA Aerospace's luxury and bespoke First Class and Business Class seats are the first choice for prestige airlines worldwide. Engineering and manufacturing offices in Europe (Rochefort & Salaunes, FRANCE) and Africa (Casablanca, MOROCCO) create an inspired range. From the 'cocooning' CELESTE® to the efficient EQUINOX® and the luxurious OPAL®, there's a solution for every airline and aircraft. The new SYMPHONY®, designed with the best in mind, joins the best selling ranks of SOLSTYS® and SOLSTYS® III, offering Business Class excellence, while the ULTIMATE 17® provides unparalleled First Class luxury.

All products have FAA and EASA approvals and are qualified for their relevant Boeing and Airbus platforms.
